

## Crammed For Space Game

Materials Needed – A city block or large building

Crammed for Space is a twist to the popular game of hide and seek. The twist is that the one person that is 'it', is the one that hides. Everyone else must try to find them. When someone finds the person that is it, they must hide with them. Play until the last person finds the group of people that are now all 'it'.

Encourage 'it' to find a small place to hide. If not everyone can fit, the whole group has to move to a new hiding spot!

Enjoy!
